Team and tasks

Scenario comparison

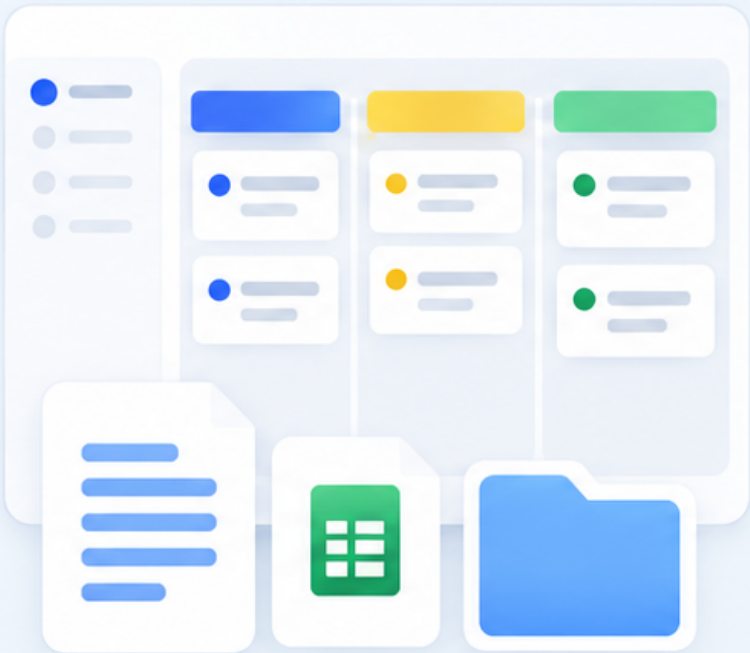

Client and sponsor reports

Synthetic demonstration

Where TeamCreator fits

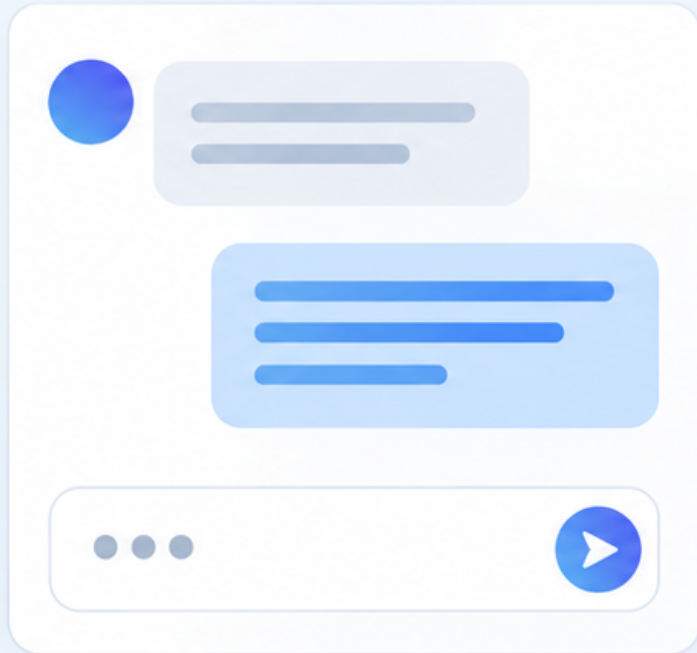

Work systems

Record tasks

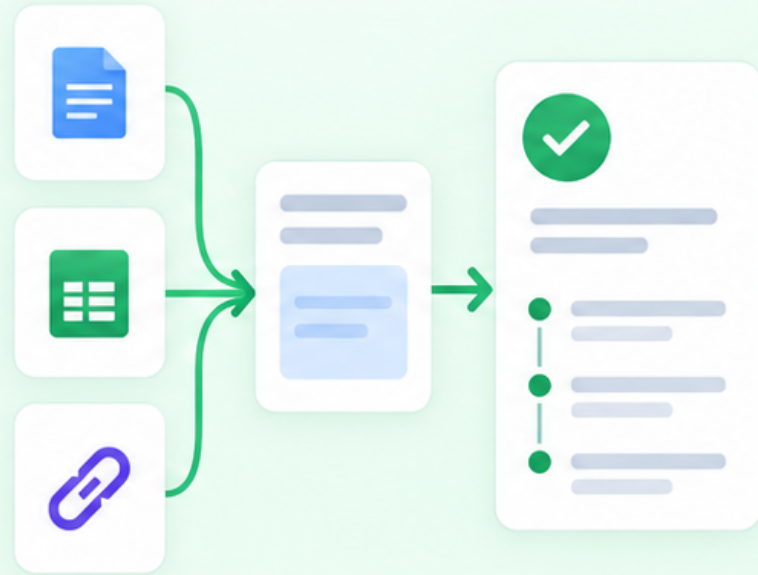

AI assistants

Draft and answer

TeamCreator

Connect context to decisions

Who pays

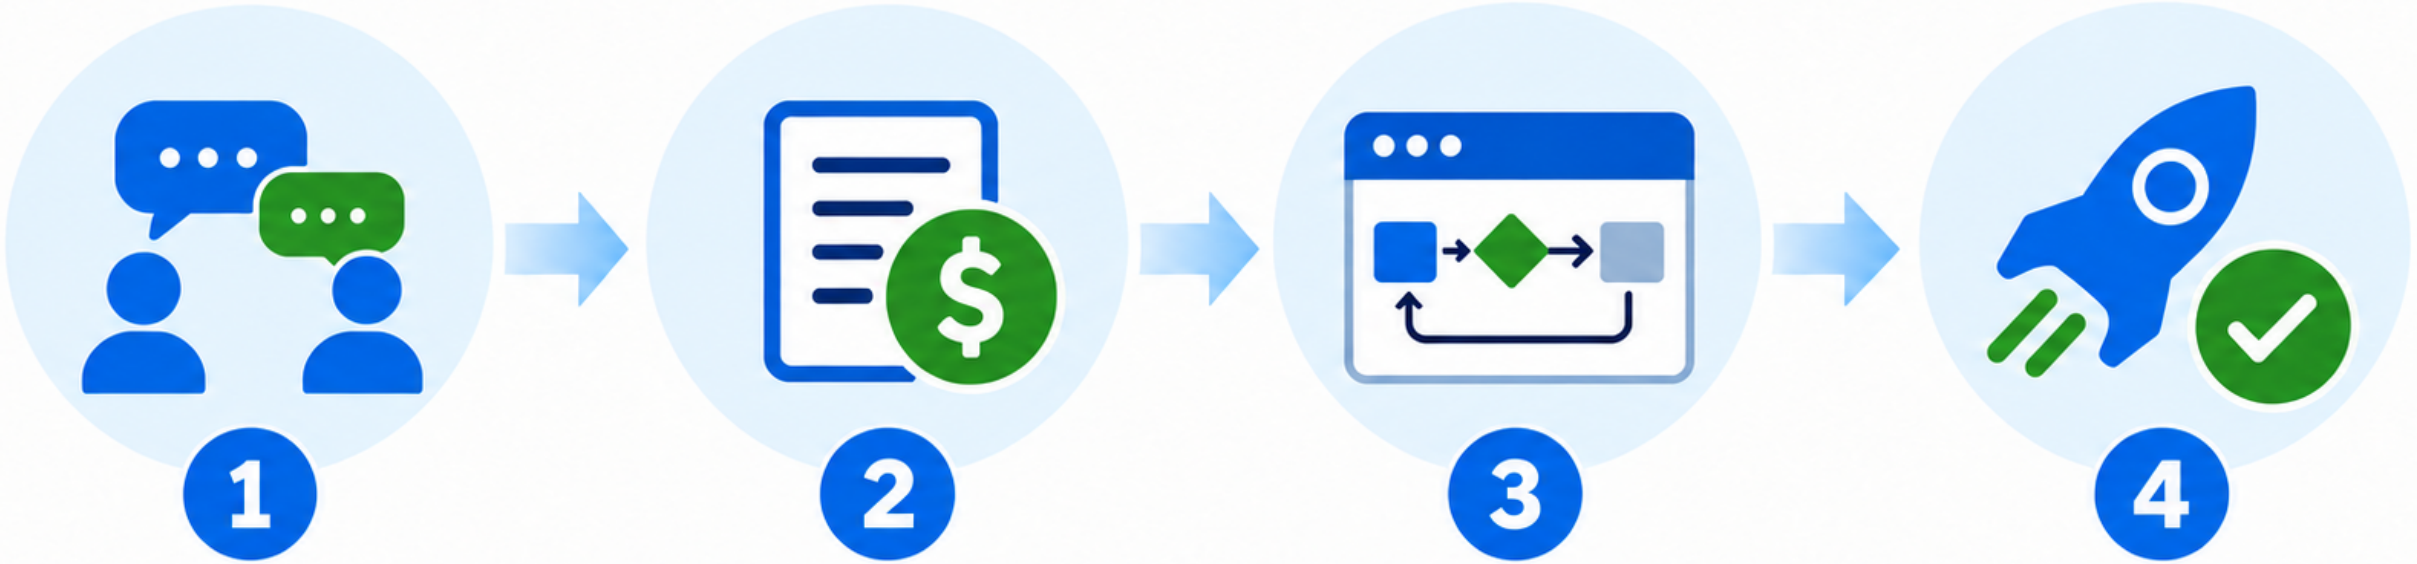

Company subscription
Per team or workspace

Optional onboarding

Optional integrations

Pricing to be tested in pilots

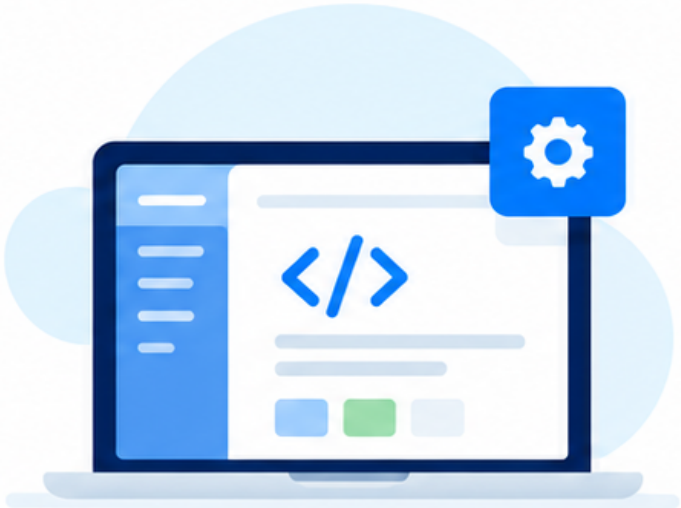

Understand the problem, then test the solution

1. Plan: 10 in-depth problem interviews
2. Choose one recurring costly decision
3. Test the smallest useful workflow
4. Pilot when value is clear

Mentor guidance: segment • interview interpretation • experiment design

What incubation should help us decide

A customer problem we understand deeply

A workflow tested in real work

A clear choice: continue, change or narrow

Initial focus: Moldova and Romania
